- Times are changing too fast – stay up to date on the latest trends, news, etc.
- Get tips and ideas from your colleagues for how to solve difficult problems
- Get assistance from colleagues in scheduling those hard to fill shops
- Wondering how to attract and motivate millennial? Maybe a colleague has some great ideas.
- Has the IRS come knocking on your door for an audit? Reach out to colleagues to find out the best way to handle such inquiries.

The new member benefit allows you, the provider companies, to communicate with other providers. No evaluators have access to this benefit so you can speak as freely as you deem necessary.

To access the forum, [click here](#). You will use the same log-in as you do for your other MSPA benefits. If you do not remember your password, that can easily be reset using the link above.

When you log-in, you will see a list of possible topics. Make the decision of where your issue fits the best. If none of the predefined topics seem appropriate, put your post in the “General Community Questions” section.

Access to the list of available topics and threads will depend on your role listed in the database. Company owners will have full access. Operations and scheduling professionals will have a more limited view and access.
